

## Draw and Write

Pollution is the result of many people throwing away lots of garbage and harmful chemicals used in factories. It is destroying the environment and is dangerous for humans.

There are ways we can all help save Earth. Recycling is the process of taking old things and making them new. That way we can reuse them again and again. We can also reduce the amount of things we use and buy.

Let's all take responsibility for our planet and help out.

# POLLUTION

**Write 10 sentences using the vocabulary words.**

1. We must \_\_\_\_\_

2. Air pollution creates \_\_\_\_\_

3. \_\_\_\_\_
