

## Draw and Write

Astronauts are people who work in space. They are very brave and spend a lot of time training and preparing to leave the earth.

Why do you think people want to work in space? What do you think they do? Is space scary? Why do you think so? Would you like to explore space someday?

Draw and color a picture of an astronaut. Draw them in space. You can also draw a spaceship, planets, and even a UFO!
